

WHY ATTEND LEVEL UP: MEGAPORT USER GROUP

Level Up is an in-person technical event designed exclusively for Megaport users across ANZ. It's focused on equipping your team with the training, insights, and connections needed to drive more value from your network - and support your business outcomes.

Support Business Outcomes with Technical Training

- Learn how to optimise your Megaport network for performance, scalability, and cost-efficiency
- Get **practical training on real-world configurations** across cloud, hybrid, and multi-site environments
- Dive into **security-conscious network designs** and architectures that reduce risk
- Explore ways to **mitigate downtime** and improve resilience through smarter connectivity
- Understand how other customers are **using Megaport to streamline complexity and save budget**

Stay Ahead of Risk, Cost, and Complexity

- Discover ways to reduce vendor lock-in and **gain flexibility** in cloud access
- Learn how peers are **avoiding single points of failure** in their design
- Hear from Megaport engineers on how to **proactively monitor, troubleshoot, and optimise networks**
- Walk away with **tactical tips** your team can implement immediately

Invest in Team Development

- Help your team **stay current with evolving infrastructure models**
- Support professional growth with **learning that's aligned to everyday responsibilities**
- Build **in-house capability** through shared learning from peers and Megaport experts
- Strengthen your internal network knowledge - across architecture, operations, and support

Connect with Peers, Experts & Ideas

- Learn directly from **Megaport engineers and product leaders**
- Hear **customer stories** and technical wins from teams like yours
- Network with fellow attendees in a relaxed, purpose-driven setting
- Leave with **clear takeaways** and stronger connections across the Megaport ecosystem
- And of course, there's a highly converted Megaport T-Shirt available for attendees!
